

Prof. R. Jayavel 講演会

TWO DIMENSIONAL NANOCOMPOSITE FUNCTIONAL MATERIALS FOR SUSTAINABLE ENERGY STORAGE APPLICATIONS

2023年 8月24日(木)
10:30-12:00

化工棟1階 111講義室

Reduced graphene metal-oxide composites with SnO_2 , CeO_2 , TiO_2 , RuO_2

Supercapacitor with improved specific capacitance, higher power density, energy density and cyclic stability

Multi-layered composites with 1 D carbon nanotubes integrated with 2 D graphene with the addition of 3 D bulk nanoparticles
